FOREIGN NEWS.

Loxnos, Nov. 21. The Pope, who was t first streamonsly aversa to any conference whatever for the settlement of the Romay question, has at length withdrawn his objections, and is now in full accord with the proposition of Napoleon. The government of Bayaria, which, it was asserted, would not join the conference, has also signified its acceptance of the Prench plan.

EXECUTION OF FEMANS.

EXECUTION OF FEMANS.

Maxcoustic Nov. 23. The condemned Femans Messes, Allon, Larkin and Gould, suffered the extreme penalty of the fact in this city at ten o'clock this fortunes.

The precautions taken by the Government to guard against outbreaks were effectual. Netwithstanding the precadence of a dense log and a drizzling tain stong the crowd that wincessed the execution was very large. The city is now perfectly quiet.

Woshington Evening Disputches.

A Washington special says: Screenry McCuiloch's report is finished and will be furnished to the leading newspapers in sexson to print on the 4th of December. The sentiment of the members of Con-

gress is ascertained to be almost maninously throrable to rigid economy. Movements are on foot by Southern loy-

alists to have Gen. Mower succeed Gen. Howard in case the latter is removed from ; the Freedmen's Bureau. It is generally consided that Congress will

repeal the cotton tax. Truops in the South will be concentrated in the principal cities after the elections and the conventions are over.

The general impression is that the financial business will be the first thing acted on by Congress and parties are being formed under the titles of Contractionists and Expausionists.

Ex-Secretary Stanton has stated to the Commission that he has no desire to resume position in the War Department.

Official advices have been received that the treaty selling two of the Danish West India Islands to the United States for \$7. 500,000, gold, has been signed at Copenhagen, Denmark, but relains Santa Cruz. The estimates for the expenses of Gen. Grant's office are \$5000, not \$500,600.

Gen. Mower's recent removals meet with the disapprobation of the President in the orain part.

Gen. Scholicht, after interviews, with the President and Gen. Grant, left for Richmond.

Mr. R. Johnson has added to his late legal power to suspend the President, and that he cannot be impeached except for

Greason and Bribery, An order will be issued in a few days re-

moving Gen. Mower. Mr. Colfax has completed the lists of committees, and it is believed that Mr. Garfield of Oldo will be Chairman of the Ways and Means Committee, and that Mr. Stevens will remain at the head of the Committee on Appropriations.

Several members have prepared hills repealing the colton tax.

The impression prevails that the law allowing confourtion of currency at the rate of four multimes per mouth, will be repealed. and several resolutions against contraction will be soon introduced in the House.

Indications point to the adjournment of the Senate from Monday to Wednesday, and then to Saturday, on which day they will aljourn sine die.

A proposition is being matured to introduce in the House, overthrowing the pres ent National Banking system and replacing their notes with greenbacks.

Mr. Schenck's Army pay bill will not be introduced for a week or two.

Propostrianness.—It is claimed that Hessel Hassel, for a purse of \$100, walked from Portage rity. Wisconsin, to Milwanker, a distance of 100 miles, in twenty-four consecutive hours on or about the 4th inst. The Milwankee News states this as a fact.
